### Cooper Surgical Continues Growth in Trumbull

Cooper Surgical will be expanding its Trumbull operations in 2015. The company currently occupies a three-building, 214,000-square-foot campus on Corporate Drive where it conducts the majority of its manufacturing, product design and distribution activities. In January, land use approvals were granted for the construction of an 18,000 square foot addition to an existing warehouse and manufacturing building at 95 Corporate Drive. In February, final land use approval was obtained for the construction of a new 80,000 square foot warehouse and office building at 50 Corporate Drive. Both projects are expected to be under construction before summer.

Cooper Surgical is a multi-national corporation headquartered in Trumbull, with other operations in California, Texas, Virginia, Germany, Denmark, and The Netherlands. The company is an industry leader in providing medical devices and procedure-based solutions to the women's healthcare segment.

"We are happy to continue our associations with Cooper Surgical and the Town of Trumbull, and participate in the growth of both" said Robert A. Scinto, Chief Operating Officer of Robert D. Scinto, Inc., the company's landlord for its Corporate Drive properties.
